P R E F A C E.

This Directory of Importers has been compiled with the object of furnishing information to those foreign merchants and manufacturers, who wish or intend to open trade-relations with the Neth. East Indies.

This fourth edition has again been largely extended and classified in a more efficient way; so as to enable the reader to find the desired information with a minimum of trouble.

DIVISION OF COMMERCE.

BUITENZORG, September 1921.

INTRODUCTION.

The total value of imports for private account into the Netherlands East Indies (divided in Java and other islands) reached the following figures:

Year.	In millions of guilders.		Totals.
	Java.	Other islands.	
1913	300.1	137.5	436.6
1914	262.4	120.7	383.1
1915	260.—	112.3	372.3
1916	287.1	115.7	402.8
1917	310.6	154.1	464.7
1918	363.8	165.1	528.9
1919	423.1	214.9	638.—
1920 ¹⁾	812.3	303.9	1,116.2

The table shows that the import trade of this Colony has increased considerably, viz. from Glds. 436,600,000.— in 1913 to Glds. 1,116,200,000.— in 1920, that is more than 155%.

Of course, in considering this enormous increase the question of the tremendous rise in prices must not be lost sight of, but even taking this factor into account the expansion in foreign trade is remarkable.

The principal countries of origin — including Singapore as a port of transshipment — and their share in the total value of imports into the Colony during the years 1913 till 1920 are as follows:

IN MILLIONS OF GUILDERS.

Countries from which imported.	1913	1914	1915	1916	1917	1918	1919	1920 ¹⁾
Singapore	67.9	58.9	66.1	76.5	119.2	134.1	132.2	125.4
U. S. of America	9.—	9.6	15.1	30.8	60.6	62.5	130.5	162.9
United Kingdom	76.6	70.3	79.9	84.7	70.8	78.7	90.9	206.1
Holland	145.3	124.1	100.—	90.8	47.9	11.4	83.3	263.0

Sweden, Norway and Denmark	0.8	0.4	1.8	2.1	1.5	1.3	3.2	9.8
French Indo-China	15.6	14.7	19.—	9.6	15.3	10.1	3.—	19.4
Italy and Switzerland	5.4	7.—	7.9	6.7	4.4	2.4	2.7	12.5
Germany	28.8	21.7	4.3	0.9	0.4	0.4	1.—	36.7
All other countries	22.9	23.—	20.—	19.1	24.7	32.3	26.4	47.8

As to the imports from Singapore, it must be remembered that this port is the clearing house for many articles ultimately destined for the Neth. East Indies, and if the figures could be sifted it is more than possible that Great Britain's place in this scale would be much higher than herein indicated, since not less than Glds. 10,000,000 of the total relates to cigarettes and Glds. 30,000,000 to manufactures in general.

¹⁾ Preliminary figures.

VIII

The enormous rise in the values of imports from the United States and Japan since 1916, shows that these two great commercial competitors of Great Britain and other countries in Europe have realised the value of the Neth. East Indies as a market for their goods.

Clothing and manufactured goods account for Glds. 71,000,000 of Japan's 1920 total, while fancy goods, copper and brass ware and matches are also important items in the Japanese bill. Motor-cars and automobile spare parts account for Glds. 32,000,000 of the United States total, while the same country supplied Glds. 12,000,000 of machinery; Glds. 39,000,000 of iron, steel, and metal articles, and Glds. 13,000,000 of lubricating oils in 1920.

In this connection it is interesting to note that the imports of the Netherlands East Indies from Australia during 1920 largely consisted of foodstuffs, Glds. 16,000,000 being expended on provisions alone.
